

International Ministries

Internationals from around the world continue to arrive in Mobile. Businesses like the steel mill and Airbus are bringing in new residents to Mobile County. Each of these internationals are created in the image of God and many come needing

personal relationships with Jesus Christ. God has brought the world to our doorsteps and given us a special place to share the Good News with these dear people.

The strategy change in the seafarers ministry continues to be an amazing blessing. Ministry volunteers are making more contacts as we are able to share on the ships and the Marine Union encourages the ships to have services onboard. The volunteers were invited to have dinner on one of the ships, at the request of the Captain. The Captain is a strong believer, as are almost the entire crew. When everyone finished a wonderful meal, they went to the conference room for a worship service. A volunteer shared with the crew about being missionaries as seafarers and they were encouraged.

The International Language School is certainly a place for meeting the needs of internationals wanting to improve their English skills. During registration, volunteers begin the process of building relationships with new students. Volunteers demonstrate the love of Christ through class instruction and devotional times. International Ministries would like to see everyone have the opportunity to worship the Lord in their own languages and cultures.

Please pray:

- for opportunities to provide Bible Studies and worship services to seafarers on ships that enter the port of Mobile
- for ILS students to come to know Jesus
- for the current Language missions and churches in the Mobile Baptist Association
- for more International churches to be planted in Mobile County
- for the many leaders and volunteers serving in International Ministries
- for more volunteers to carry out the many facets of ministry to Internationals living in Mobile County
