Time to Refuel your Youth

We are already nearly full for our Week 2 of Refuel and week 1 is getting registrants and we hope to have this camp at capacity as well. We had such a positive response to our youth camps last year that word has spread and we filled up one week just by word of mouth advertising. In this economy save your church a lot of money without sacrificing the quality of camp. We have the best youth camp around and are second to none.
